Archi - ArchiMate Modelling

What's New in Archi Version 2.4.1

Important Note

It is always a good idea to make backup copies of your data before installing a new version of Archi. Whilst we make every effort to test the software and check for bugs we cannot guarantee that bugs do not exist in the application nor that your data might be affected by changes in this version of Archi.

New Features in version 2.4.1

- A Visualiser diagram can now be exported as an image to file, or copied to the clipboard
- Colours Preferences - can now Import/Export user-defined fill colour schemes
- Colours Preferences - Added an option to show user-defined fill colours in the model tree, palette and elsewhere
- Colours Preferences - Can reset an individual fill colour to its default value by holding Ctrl/Command key when clicking on colour button
- The Java version shipped with the Windows installer is now version 1.7.0_45
- New Innno Setup Installer for Windows version

Fixes in version 2.4.1

- Fix connection label not located properly when in parent figure (fix by Jaiguru)
- Relationship rules changed:
  Application Interface -> Business Service: "iou" (was "ou")
  Node -> Node: "acfgostu" (was "cfgostu")
  Node -> Device: "acfgostu" (was "cfgostu")
  Node -> Network: "aiou" (was "o")
  Node -> CommunicationPath: "aioru" (was "o")
  Device -> Node: "acfgostu" (was "cfgostu")
  Device -> Device: "acfgostu" (was "cfgostu")
  Device -> Network: "aiou" (was "o")
  Device -> CommunicationPath: "aioru" (was "o")

Review of the Main New Features

A Visualiser diagram can now be exported as an image to file, or copied to the clipboard

You can now save the contents of the Visualiser as an image to file, or copy the image to the system clipboard from the context menu.

Colours Preferences

New options have been added:

Use these fill colours in the model tree and editor palette
If this is checked then these fill colours are used in the application in the model tree and editor pallete. This requires restarting the application for full effect.

Import Scheme
Import a colour scheme that has previously been exported.

Export Scheme
Export a colour scheme to share with other users.

To set an individual colour to its default, hold the Ctrl/Command key down when clicking on it.

Colours

Default fill colours

☐ Save the default fill colour for a new element in the .archimate file.

☑ Use these fill colours in the model tree and editor palette (requires restart if changes are made)

Business Actor	Application Component	Stakeholder
Business Role	Application Collaboration	Driver
Business Collaboration	Application Interface	Assessment
Business Interface	Application Service	Goal
Business Function	Application Function	Principle
Business Process	Application Interaction	Requirement
Business Event	Data Object	Constraint
Business Interaction	Artifact	Work Package
Product	Communication Path	Deliverable
Contract	Network	Plateau
Business Service	Infrastructure Interface	Gap
Value	Infrastructure Function	
Meaning	Infrastructure Service	
Representation	Node	
Business Object	System Software	
Location	Device	

To set an individual colour to its default, hold the Ctrl/Command key down when clicking on it.
